Elementary students set to gear up creatively

The Manitou Springs Arts Academy (MSAA), an arts 501(c)3 organization has helped to build and enrich arts offerings in our schools and the larger community since 1992. We are a multi-disciplinary arts organization that integrates the arts in the belief that they mutually inform one another.

Like so many of you, we have wondered, "How can we be helpful during this stress-filled time?"

Reflecting on the adage, that it is better to give than to receive, we have decided to give!

At the beginning of April, each MSSD14 elementary school student will receive a bag of quality music, visual art and theatre supplies. They will be distributed in their classrooms at MSES and UPES.

Children and families: please enjoy your Arts Gear Grab and Make Art Pack! It is our hope that every child benefits from having their own supplies to care for, and use to play, invent, problem solve and reimagine.
